Legal Compliance

Some of Our Prestigious Clients

Managed By Praxis Health Services

Testimonials - What Our Clients Say About Us

The audit team is very competent. I liked them for being polite, courteous, and open-minded. If it's not clear the first time; they'd repeat the question in another way, and then give chance to auditees to make their point. This was not just an audit but also an opportunity to learn. I recommend it to any company having an annual 3rd party legal compliance audit (OSHAD).

Zublin Construction, HSE Manager

I really appreciate the technical team at 'Business Excellence for being so prompt in doing the needful in regards to the approval of management systems (against OSHAD SF V 3.1) by Abu Dhabi Municipality. I truly endorse them for being competent and delivering on time, as committed.

Telal Resort, Mr. Adnan Manzoor, HR & Training Manager

It was a challenge for us to implement our management system in line with the OSHAD and Department of Culture & Tourism. However, through our annual agreement, they have helped us comply with legal requirements in an easy way. I like their approach and methodology and strongly recommend to any high-risk company for the development and implementation of their management systems.

ANDALUS al Seef Resort, Pradib Devkota, HSE Manager

I've worked with many 3rd party ISO consultants; however, most of them use copy-paste approach. However, I consider Business Excellence different and the best choice for various reasons. They helped us understand the standards in the context of our business; engaged all the key process owners; and their tips on implementation towards effective and efficient management systems in spirit; not just for the sake of documentation. I highly recommend Business Excellence to any company that's looking for an ISO certification solution.

Bond Interiors, Ms. Ajanettee Dela Cruz, QA/QC Manager
